2. PETITION TO THE CANADIAN GOVERNMENT

Dear Member of the Canadian Government:

We are writing you on behalf of Organization of Victims of Psychotronic (Mind Control) Weapons to ask for your help for the many constituents in Canada who are being targeted unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons. We, and many others, are being **TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7**. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic weapons detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidents of psychological torture, mental and physical mutilations. Criminals place human subjects under continuous surveillance, no matter where he/she is. They monitor the human brain, including thoughts, reactions, motor commands, auditory events and visual images. They continuously alter consciousness, introduce voices, noises, commands, images, "dreams", and other disturbances into the brain. They directly abuse, torture and assault our bodies - including performing advanced medical procedures from remote locations.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense, loud, electronic-sounding noise.
- 2). Visual distortions and hallucinations.
- 3). Manipulation of will, emotions, feelings, and perceptions.
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands.
- 5). Reading thoughts remotely, retrieving memories, implanting personalities.
- 6). Debilitation of mental acuity: inability to concentrate, disruption of ability to think rationally and independently.
- 7). Loss of memory and knowledge.
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on).
- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating, artificial pain in any part of the body, including heart attacks and other serious, medical conditions.

Investigation of these crimes is under jurisdiction of RCMP in Canada. We have contacted RCMP, police, Security/Intelligence Agencies, Courts and other Government institutions over and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. The government "doing nothing" in this situation is a form of sanctioning these horrendous, fascist mind control experiments on innocent and defenseless people. That is why the Canadian Government is responsible for these crimes. The government

of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws. Instead we see the huge disconnect between its professed principles and values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, and the health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

Doctor Joseph Mengele and other Nazis, who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experiments with unwilling victims. We are the latest victims. THIS MUST STOP, and the people responsible exposed and brought to justice for these unspeakable crimes against humanity. We demand only that our human rights are respected, and that the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence collected, intercepted, and compiled by victims for many years.

This gross violation of human rights must be investigated immediately.

Sincerely,
