Classified docs on "Nano Domestic Quell" DoD kill-switch program released to public by Dr. Bill Weld. *[DOWNLOAD LINK BELOW*](#)

This is how the military will be respond to the economic collapse, and how they will put down armed uprisings, riots and domestic revolts.

PLEASE READ CAREFULLY & LISTEN TO THE VIDEO:

As promised, these are some of the classified documents given to me by my good friend in the Department of Defense, a very highly ranked official I have known for many years.

The program is called "Nano Domestic Quell".

As the documents clearly demonstrate, the U.S. government has embarked on a program to implement a secret "Armageddon nano device" that mimics a flu virus, to be activated on the public in the instance of domestic uprisings, riots and armed resistances.

The nano devices are in, or "carried" by, an estimated 87% of the population at this point, with a projected 98% infected by 2014.

Chances are, you already have this nano device inside of your body as you read this.

Please understand: these nano devices are *inert* until activated by a radio signal or transmission.

You are safe until a cell tower, drone or other method of transmission activates the device. (I do not personally know *how* this transmission works. The documents I've received do not go into any detail on that specifically. I do know drones and cell towers will be used, however.)

Once activated, the device will mimic the flu virus. You will be dead within 10 to 12 days. There is no known cure or way to prevent this. (I go into more detail on this in some of [my videos](#), of which I recommend viewing all of them to fully understand and appreciate what is going on.)

The military can target very specific locations, particularly with drones (why do you think they want drones over U.S. skies so desperately?). They can target a room, a small house, an apartment complex, a city block, a town, or a whole metropolitan area.

By simply firing this signal, the nano devices in your body will be activated and you will die from what will appear to be a very severe case of the flu.

The virus outbreak can scale from individual or group-targets, or to a large city-wide outbreak.

This program was not created to kill everyone. Let me repeat: *they are not trying to kill everyone*. They created this program to deal with domestic uprisings during an economic collapse.

It is now ready and being implemented. When the collapse happens, they won't have enough troops to control the country or deal with the armed resistances. They needed another way of keeping control. By not having to fire a single shot to put down an armed uprising, they're essentially "killing two birds with one stone". A flu virus will appear to be a random "act of God" instead of perceived government aggression.

Why do you think they haven't banned guns? They don't need to with this system in place.

Please bear in mind that there is an active campaign underway to discredit me, attack me and bring me down. Please understand my children are sick and I believe their sickness -- a bizarre skin condition that is worsening for both of them -- is a result of my blowing the whistle. I believe they have been harmed intentionally. I believe they are trying to send me a message by messing with my children.

I need your help. I need your trust. I need you to help this spread. I have more documents, with even more frightening information, but at this point, my life is in danger. If no one is paying attention or listening, it does me nothing to continue with this, other than put my life and the lives of my family in certain danger, all for nothing.

If it doesn't spread or go viral in some manner, we are finished, because they will continue to destroy me, remove any trace of me from the internet (records from my some of my previous employers are already missing, among other things), they will destroy me and the public will never find out about this.

Please pray for us, pray for my wife, Helena, my son, Bill Jr., my daughters, Katherine and Grace. We need your help more than ever.

Get your children out of the hospital asap! The system is corrupt! They know who you are. Please do not trust them. It is an underground system of brain washed from birth people that are the brown shirts of the new world order working in the hospitals and in every faucets of our lives in an under ground society! I know they will be the next in line after us, just like the brown shirts of nazi Germany! This is my only consolation, for these evil people. Distilled water, high doses of vitamin C and D 3 and raw organic coconut oil applied locally and ingested along with diatomaceous earth ingested daily might help. Also Allicin C might help, research this. Modern western medicine is a sham!

thanks for your work bill, i can off 2 things for those "wounds" your family are suffering from, eucalyptus oil-has proven anti fungal/bacterial/virus properties, the same can be said of olive leaf extract, they are both cheap and effective, also fresh aloe vera is and exelcent skin wound healer, im in australia and i believe that these nano weapons have been deployed not just in the usa but also europe, australisia, and the rest of the developed world as well. keep up the good fight sir as they try to kill our sprit through our bodies, we wont let them win with venus ecm.
